Summary

Computer Science and Engineering student with hands-on full-stack development experience building real-world applications. Developed an AI-assisted learning platform using React and TypeScript, selected as a finalist team in two national buildathons, and contributed to research on ML classifiers for fraud detection. Strong foundation in JavaScript, React, Python, and modern web technologies.

Technical Skills

- **Programming:** C, C++, Java, Python, JavaScript, TypeScript
- **Web:** HTML5, CSS3, React.js, Tailwind CSS, Next.js, Node.js, Express.js
- **Databases:** MongoDB, PostgreSQL
- **Auth & Security:** BetterAuth
- **Tools:** Git, GitHub, VS Code, MATLAB, Microsoft Office
- **Core Concepts:** Data Structures & Algorithms, OOP, DBMS, Operating Systems

Projects

HomeSchool – AI-Assisted Learning Platform *(Group Project)*

- Led the product and curriculum development of an AI-assisted learning platform aligned with the NCTB curriculum for Classes 6–12.
- Collaborated on building features for AI-generated lessons, quizzes, multilingual learning, student progress tracking, and parent analytics.

Tech stack: React 19, TypeScript, Tailwind CSS 4, Supabase
Live link: home-school-demo.vercel.app

ZnthHost – Web Hosting Business Landing Page

- Developed a responsive web hosting landing page with modern UI, pricing cards, interactive FAQs, animations, and a simulated checkout flow.

Tech stack: HTML5, CSS3, JavaScript (ES6)
Live link: znth.salaxar.com

Experience

Fixensy – English Annotator [Remote] (2026)

- Transcribed and synchronized English audio content with accurate subtitle timing and quality control.

Bdapps – Lite App Developer [Remote] (2024)

- Developed SMS-based lightweight applications using the BDApps platform.
- Worked within telecom-oriented application constraints and service requirements.

Research Publication

Comparative Analysis of Machine Learning Classifiers Using SMOTE Balancing for Credit Card Fraud Detection
Authors: Al-Mehedi Hasan, Md. Mehedi Hasan Chowdhury Mahi, Tanver Ahmed, Md. Muktar Hossain
Presented at: 2nd Undergraduate Conference on Intelligent Computing and Systems (UCICS 2026)

Achievements

- **The Infinity AI BuildFest 2026 – Finalist:** "NextGen Learners" – Selected for the final round
- **MillionX Bangladesh – National AI Buildathon 2026 – Finalist:** "NextGen Learners" – Selected for the final round

- **NASA Space Apps Challenge 2025 – Galactic Problem Solver:** "Team Talestra" – Participated in the NASA Space Apps Challenge 2025
- **Robo-Soccer 2024 Competition – Tech Carnival at Varendra University 2024 – Participant:** "Team Spark" – Built a robo-soccer bot and competed in the competition

Education

B.Sc. in Computer Science & Engineering (CSE) Summer 2023 – Present
Varendra University, Rajshahi *Expected Graduation: 2027*
CGPA: 3.80 / 4.00

HSC (Science) Batch: 2022
Varendra College, Rajshahi *Board: Rajshahi*
GPA: 5.00 / 5.00

SSC (Science) Batch: 2020
Govt. Laboratory High School, Rajshahi *Board: Rajshahi*
GPA: 5.00 / 5.00

Leadership & Activities

- Campus Team Member – Excellence Bangladesh 2026–27
- Campus Ambassador – InfoGram 2026–27
- Campus Ambassador – Progsity 2025–26
- Campaign Coordinator – Hult Prize at Varendra University 2025–26
- Branding & Promotion Team Member – Hult Prize at Varendra University 2024–25
- Executive Committee Member – Basis Students' Forum Varendra University Chapter 2024–25
- Event Manager – Bdapps at Varendra University Chapter 2024–25
